

Welcome Dr. Bills & Family

Dr. Bills enjoys treating infants, kids and teenagers with all kinds of foot issues. He also enjoys treating sports and other injuries to the foot and ankle.

WE'RE GROWING AGAIN!

Thank you for your patience with us as we have been growing leaps and bounds. Dr. Bills is quickly becoming acquainted with our policies and procedures. We expect him to be up to full speed by September 2018.

Also September 4th, Dr. Hoenig will be joining our practice, as our third podiatrist on staff.

We are really looking forward to enhancing our patient experience. We are in the process of developing a call center to streamline the handling of all incoming calls. We expect our call center to be up and running by the late fall.

Heel Spurs

One of the most common areas for a bone spur to occur is on the back or bottom of your heel.

Heel spurs on the bottom of your heel are most commonly associated with Plantar Fasciitis while spurs on the back of your heel typically aggravate your Achilles Tendon.

Heel spurs can range from bothersome to wildly painful. Special pads, orthotics and surgery are all treatments for spurs.

Don't live with the pain, give us a call today.

Next Step Foot & Ankle Clinic Podiatrist

Boyd Bills, DPM
Next Step Foot & Ankle Clinic Podiatrist

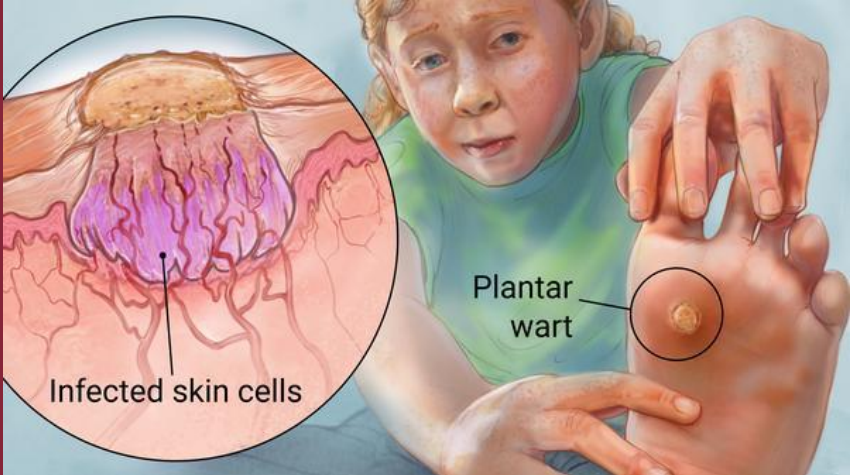

Your Next Step For Healthy Feet: www.NextStepFoot.com

Is your child's flat feet slowing them down? Try children's orthotics. Reminder, you can use your FSA / HSA Funds to purchase your custom orthotics.

Plantar Warts

Hard, Grainy Warts on the Bottom of Your Foot

Walking barefoot exposes your feet. Plantar Warts are a viral infection that causes growth of the skin that is 4 -5 times faster than normal skin.

Typically Plantar Warts are treated with topical solution and the wart is gone within two to three weeks. Make your appointment today with Next Step Foot & Ankle Clinic today!

Thank you for all you do to support Next Step Foot & Ankle Clinic. The best gift you can give us is a referral. If you know someone with foot pain, please don't hesitate to send them to Next Step Foot & Ankle Clinic.
