### Relief in 3 easy steps.

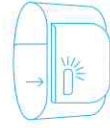

After a simple calibration, Quell will automatically deliver therapy sessions every other hour.

**Step 1**  
Snap the electrode in place.

**Step 2**  
Strap the band to your upper calf.

**Step 3**  
Simply click the button to start relief.

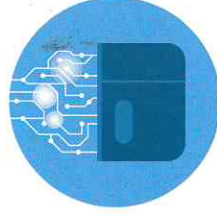

### Experience relief in as little as 15 minutes.

Quell is customized to you through a quick and easy calibration process the first time it's used. After that, Quell automatically adjusts to your optimal stimulation level for your most effective pain relief.

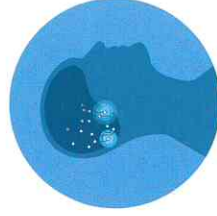

It's that simple.

### How Quell works.

Quell is powerful enough to stimulate the nerves in the upper calf carrying neural pulses to the brain tapping into the body's natural pain relief response. Endogenous opioids are then released within the spinal cord where pain signals are blocked in your body.

Quell stimulates sensory nerves.\*

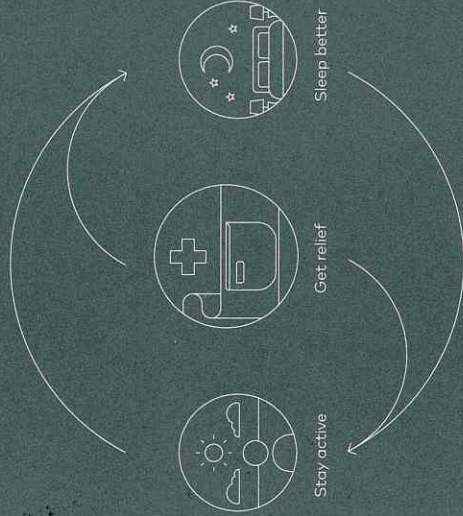

Sensory nerves carry neural pulses to your brain.

Neural pulses trigger a natural response that blocks chronic pain signals in your body.

100 million Americans suffer from chronic pain.

Chronic pain is more than just pain, it can interfere with your daily activities, impact your mood or prevent you from sleeping soundly. Quell is a revolutionary new form of wearable technology to help you manage chronic pain. Quell is designed for people with nerve pain, fibromyalgia, sciatica, osteoarthritis and other limiting conditions. Now is your chance to regain what chronic pain has taken from you.

## Pioneering wearable pain relief.

NeuroMetrix was founded as a spinoff from the Harvard-MIT Division of Health Sciences and Technology in 1996. Quell was created by a group of scientists and engineers at NeuroMetrix who are committed to empowering people to regain a high quality of life.
